

LISTING OF DATA SOURCES :

1. Turtle data:

- SOUTH CAROLINA:
Michelle Pate (State Coordinator)
South Carolina Department of Natural Resources
- NORTH CAROLINA
Dr. Matthew Godfrey (State Coordinator)
Sea Turtle Program Coordinator
North Carolina Wildlife Resources Commission

2. Weather Data:

NATIONAL CENTERS OF ENVIRONMENTAL INFORMATION(NOAA)

3. Salinity and Turbidity and Nutrient (Dissolved Oxygen) Data:

SWMP data are available from the NOAA-funded Centralized Data Management Office, which also conducts extensive data quality control. Each reserve also has at least one water quality station and one weather station providing immediate, real-time information. Data is collected for in the stations that collect water quality information.

Specific station selected: Data collected from "**East cribbing**" station of North Carolina about salinity and turbidity of Kure Beach, NC.
